

Solar California 2005

Putting the pieces together

Solar Forum - Feb. 2005
The Rarus Institute

Can we do it?

- Integrate solar and efficient technologies in truly comprehensive manner eg. ZEH
- Rooftops for the 21st century – more than a pretty hat – power, hot water, and more.
- Raise the bar on quality and performance
- Commit to major investment in solar technology and applications... statewide
- New model for utility role in Distributed Generation world.

Can we do it?...YES!
