

# 2005 Lodi Solar Schoolhouse Olympics

**Introduction:** The Second Annual *Solar Schoolhouse Olympics* in Lodi is scheduled for **May 7, 2005** at Lodi High School. Students prepare solar projects in categories that draw on various disciplines, including science, mathematics, English, communications, art and business. Students are challenged to use their capabilities in design, construction, oral presentation, written communication, and artistic expression. Students will also develop project management skills and team work.

**Who is eligible:** Schools in Lodi Unified School District, grades 4-12. All other schools within the City of Lodi - grades 4-12.

**Resources Available:** A limited number of **FREE** Event starter kits are available to participating schools. Examples include: Solar car parts & panel (Solar Cars), solar electric panel & pump (Solar Fountain/Sculpture), solar cell kit (Model Solar Home), etc. Register Now!
